

COURSE

Evidence-Based Intervention for Children with Speech Sound Disorders with **Caroline Bowen**

'Evidence-Based Intervention for Children with Speech Sound Disorders' is the most recent formation of the prestigious Caroline Bowen. It includes a range of evidence-based and/or theoretically sound intervention approaches SLPs/SLTs employ to work with children with Speech Sound Disorders.

Caroline Bowen (Australia)

Learning Objectives:

- ✓ Select and implement core assessment procedures in order to differentially diagnose children's SSD;
- ✓ Choose an appropriate intervention approach or approaches, based on assessment findings;
- ✓ Identify optimal targets and goals within those approaches;
- ✓ Implement the approaches;
- ✓ Strategies to adapt therapies to suit clinical conditions.
