| Most Complex | | Sonority Difference | |
|---------------|---|---------------------|---|
| ↑ | Voicless fricative + nasal | sm sn | 2 |
| | Voicless fricative + liquid | fl fr θr sl | 3 |
| ↓ | Voiced stop + liquid or voiceless fricative + glide | bl br dr gl gr sw | 4 |
| | Voicless stop + liquid | pl pr tr kl kr | 5 |
| | Voicless stop + glide | tw kw | 6 |
| Least Complex | | | |

Consider targeting 3-element clusters, and 2-element clusters with smaller sonority differences (2 or 3 or 4).

| | | | |
|---------|---|----------------------|---|
| vowels | 0 | voiced fricatives | 4 |
| glides | 1 | voiceless fricatives | 5 |
| liquids | 2 | voiced stops | 6 |
| nasals | 3 | voiceless stops | 7 |
